

Total Window Cord Draw 5100 Track System

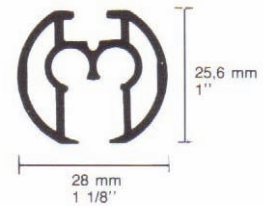

Cord Draw System 5100

The cords are contained in separate channels inside the track. System 5100 can be curved with a radius of 15 cms, 25 cms, and 40 cms upwards. The minimum return length with a 15 cms radius bend is 22 cms. Given a system length of 6.0 mts the maximum curtain weight is 22 kg. 28 mm finials can be fitted to the cord guide/returns. If required the cording set can be assembled or adjusted after the track has been installed.
