

Custom Hardwood Shutters

A BETTER WAY TO SEE THE WORLD™

Nothing adds more style and character to a home or office than custom-crafted hardwood shutters.

Total Window's hardwood shutters are custom-crafted of specially selected, renewably harvested, Western Red Alder (other hardwood options available). This furniture-quality species, noted for its exceptionally even texture and fine, smooth grain, provides an unsurpassed surface for smooth, lustrous finishes -- vibrant paints and deep, rich stains able to match any existing millwork.

We use 100 percent water-reductible lacquer and acrylic latex paints and stains, which are environmentally safe and extremely long lasting.

Available in louver sizes of 1 7/8", 2 1/2", 3 1/2", 4 1/2", and 5 1/2" to provide greater louver control, enhanced viewability and a lifetime of smooth, flawless operation.
